Contents

Volume 54 (1990)

No. 1

M. Krumbiegel and K. Arnold (Leipzig, G.D.R.), *Microelectrophoresis studies of the binding of glycosaminoglycans to phosphatidylcholine liposomes* 1

D.B. Fenske and R.J. Cushley (Burnaby, Canada), *Insoluble complex formation between low density lipoprotein and heparin. A ^{31}P-NMR study* 9

J.E. Baenziger, I.C.P. Smith and R.J. Hill (Ottawa, Canada), *Biosynthesis and characterization of a series of deuterated cis,cis-octadeca-6,9-dienoic acids* 17

M. Chautan, M. Dell'Amico, M. Bourdeaux, J. Leonardi, M. Charbonnier and H. Lafont (Marseille, France), *Lipid diet and enterocyte microsomal membrane fluidity in rats* 25

A.I.P.M. de Kroon, J.W. Timmermans, J.A. Killian and B. de Kruijff (Utrecht, The Netherlands), *The pH dependence of headgroup and acyl chain structure and dynamics of phosphatidylserine, studied by ^{2}H-NMR* 33

B.I. Glänzer, K. Königsberger, B. Berger, K. Faber and H. Griengl (Graz, Austria), *Strategies for the chemoenzymatic preparation of optically active 1-alkyn-3-ols* 43

O.H. Abdelmageed, R.I. Duclos Jr., E. Abushanab and A. Makriyannis (Storrs, CT, Cambridge, MA and Kingston, RI), *Chirospecific syntheses of ^{2}H- and ^{13}C-labeled 1-O-alkyl-2-O-alkyl'-sn-glycero-3-phosphoethanolamines and 1-O-alkyl-2-O-alkyl'-sn-glycero-3-phosphocholines* 49

H.D. Dörfler and P. Miethe (Dresden, G.D.R.), *Phase diagrams of pseudo-binary phospholipid systems II. Selected calorimetric studies on the influence of branching on the mixing properties of phosphatidylcholines* 61

R. Koynova and H.-J. Hinz (Sofia, Bulgaria and Regensberg, F.R.G.), *Metastable behaviour of saturated phosphatidylethanolamines: a densitometric study* 67

Short communication

R.C. Mordi and J.C. Walton (Fife, U.K.), *Electron spin resonance study of free radicals generated from retinyl- and ionyl-derivatives* 73

No. 2

W. Ehringer, D. Belcher, S.R. Wassall and W. Stillwell (Indianapolis, IN), *A comparison of the effects of linolenic (18:3ω3) and docosahexaenoic (22:6ω3) acids on phospholipid bilayers* 79

H. Brachwitz, P. Langen, G. Dube, J. Schildt, F. Paltauf and A. Hermetter (Berlin, Germany and Graz, Austria), *Halo lipids. 10. Synthesis and cytostatic activity of O-alkylglycerophospho-L-serine analogs* 89

M.M. Basti and L.A. LaPlanche (DeKalb, IL), *^{1}H-, ^{13}C- and ^{31}P-NMR studies of dioctanoylphosphatidylcholine and dioctanoylthiophosphatidylcholine* 99

L.C. Stewart, M. Kates, I.H. Ekiel and I.C.P. Smith (Ottawa, Canada), *Molecular order and dynamics of diphytanylglycerol phospholipids: a ^{2}H- and ^{31}P-NMR study* 115

M.A. Singer, L. Finegold, P. Rochon and T.J. Racey (Kingston, Canada and Philadelphia, PA), *The formation of multilamellar vesicles from saturated phosphatidylcholines and phosphatidylethanolamines: morphology and quasi-elastic light scattering measurements* 131

No. 3, 4

Review article

J.B. Finean (Birmingham, U.K.), *Interaction between cholesterol and phospholipid in hydrated bilayers* 147

M. Jansson, R.L. Thurmond, T.P. Trouard and M.F. Brown (Tucson, AZ), *Magnetic alignment and orientational order of dipalmitoylphosphatidylcholine bilayers containing palmitoyllysophosphatidylcholine* 157

H.-D. Dörfler, P. Miethe and A. Möps (Dresden, G.D.R.), *Phase diagrams of pseudo-binary phospholipid systems III. Influence of the head group methylation on the miscibility behaviour of N-methylated phosphatidylethanolamine mixtures in aqueous dispersions* 171

H.-D. Dörfler, P. Miethe and H.W. Meyer (Dresden, G.D.R.), *Phase diagrams of pseudo-binary phospholipid systems IV. Preliminary results about the effects of LiCl and $CaCl_2$ on the phase transitions of amphoteric phospholipids in aqueous dispersions* 181

L.T. Boni, W.R. Perkins, S.R. Minchey, L.E. Bolcsak, S.M. Gruner, P.R. Cullis, M.J. Hope and A.S. Janoff (Princeton, NJ and Vancouver, Canada), *Polymorphic phase behavior of alpha-tocopherol hemisuccinate* 193

P.E. Sonnet, J.A. Gazzillo, R.L. Dudley and R.T. Boswell (Philadelphia, PA), *Synthesis and characterization of enantiomers of 5- and 6-methyloctanoic acids* 205

T. Ioneda (São Paulo, Brazil), *Mass spectrometric analysis of O-peracetylated derivatives of 1-monomycoloylglycerol isolated from Corynebacterium pseudotuberculosis, Rhodococcus rhodochrous and R. lentifragmentus* 215

R.N. Reusch (East Lansing, MI), *Influence of alkali metal cations on the transport of calcium by phosphatidate in multi-phase systems* 221
